

# CHINATOWN BROADWAY STREET DESIGN

*The San Francisco Planning Department and Chinatown Community Development Center invite you to the first CHINATOWN BROADWAY STREET DESIGN WORKSHOP*

Please join us to discuss the future design of Broadway from Columbus Avenue to the Broadway Tunnel. This project will develop a community-based vision to improve pedestrian conditions, and develop a design plan that is safe, gracious and lively.

We want to hear your thoughts on ways to improve this important corridor. At this workshop there will be a brief presentation on existing conditions, followed by an opportunity to share ideas.

Light refreshments and Cantonese translation provided. We want to hear from you! Please join us!
